

4th Grade November News

Fall Break is behind us and we are quickly entering the Holiday season. We wish your family the very best, and if you have any concerns please let us know.

Students are required to get 20 Reading Counts points each nine weeks. Students should be reading a book at their level and taking a quiz on it approximately once a week. If they do a quiz a week they will be able to easily meet this goal. There is a rubric posted on the 4th grade website and if you have any questions please let us know.

The next round of growth monitoring will be held the week of November 14th. Scores will be shared with students so that they can monitor their growth. If you are interested in this information please contact your child's homeroom teacher.

Students are encouraged to bring home their Math Instruction book if they are struggling. Most students are doing much better with the new math. Some are still struggling. We are finding that many who are still struggling need to stay focused during math and participate in the math lesson.

Just a reminder that we post a weekly Family Times Newsletter weekly on our website. This contains all the Reading and Language Arts skills that we are working on. We also post the weekly Spelling List. If you are interested in online spelling games, click on the Spelling City link under Mrs. Stewart-Merryman and find the name of our weekly story. (It will always be on the Family Times Newsletter)

November dates to remember:

11th Veteran's Day Program

14th-18 Book Fair

16th Midterms Go home

23-25 Thanksgiving Break
