

Dear Parents and Guardians,

We are excited to share that our school is implementing a Math program called i-Ready. Below, you will find information on the program and how we will be using it in the classroom.

What is i-Ready?

i-Ready is an online program that will help us assess your child's individual needs and monitor their progress throughout the school year. [Include one or both of these bullet points depending on which i-Ready products you use] The i-Ready Diagnostic is an adaptive test that adjusts its questions to suit your child's performance. Its purpose is not to give your child a score or grade but instead to determine where they need the most support. i-Ready Instruction provides students with lessons based on their individual skill level and needs, so your child can learn at a pace that is just right for them. These lessons are fun and interactive, with games and characters to keep your child engaged.

How will i-Ready help my child?

i-Ready will help us determine how we can best support your child in meeting their learning goals and will provide lessons that fit their individual needs. Past data shows that students who used i-Ready for more than 45 minutes per week grew 44% more in Reading and 65% more in Math than the average student.

If you have any questions or concerns, please do not hesitate to contact us or your child's teacher.

Sincerely,

Darren Haas, Principal

Kelli Morgan, Assistant Principal
